***PostalOne! System Outage - Update***  
***February 8, 2010***  
***Worldcolor Logistics NEWS FLASH - Issue #263***

The *PostalOne!* system has been down since 5:50 pm ET Friday, February 5 and is projected to be back up late evening on Tuesday, February 9. The USPS is working diligently to correct the problem. During this outage mailers cannot access mailing reports, balance, fees and transaction information, submit electronic mailing information or receive Full Service feedback such as address correction information. Although the FAST system is operational, only the online FAST application is available to schedule appointments.

USPS acceptance facilities are operating under contingency procedures.

Worldcolor Logistics has implemented contingency procedures to assure our customers that mail will not be delayed due to the *PostalOne!* outage. Please direct any questions to:
